

# Life Extension

Transformer Services  
Testing & Engineering  
Low Voltage Components  
Engineered Products  
Engineered Systems  
Electrical Safety Compliance

Life Extension Solutions for Electrical Equipment.

Aging electrical infrastructure creates major risks to your business – especially when coupled with limited access to support for OEM-obsolete product lines.

## Where do you start?

- Life Expectancy of Critical Systems
- Equipment Failure Prediction/Prevention
- Electrical Maintenance/Rebuild Programs
- Parts & Components – Stockroom Management
- Engineered Solutions for Custom Applications
- 24/7/365 Emergency Service & Delivery

All equipment is fully remanufactured or new, tested and warranted. Typical delivery is 24 hours to 1 week.

## Switchgear & Switchgear Components

Available from stock for immediate delivery, all 240v–15kv switchgear, panelboard and disconnect switches manufactured from 1940–current by all US manufacturers.

- All switchgear is available for new installations, match and lineup, or maintenance replacement of components.
- Engineering assistance is available to offer creative, efficient solutions.
- Configured to the customer's exact specifications.

Authorized OEM for:  
**ABB | Eaton | GE | Schneider Electric**  
**Siemens | Toshiba**

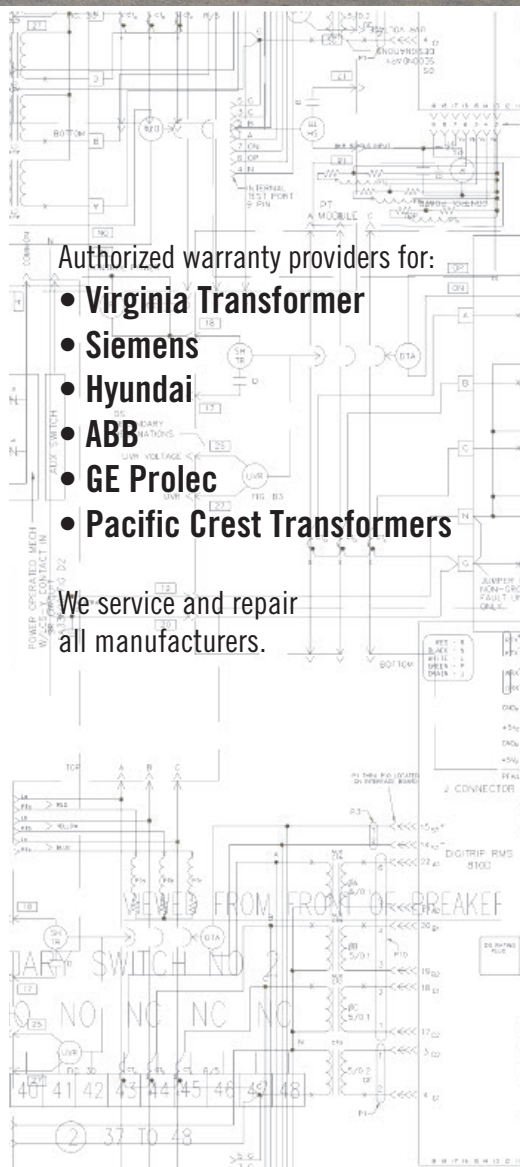

# Transformer Services & Repair

**FULL ELECTRICAL TESTING & SERVICES**  
 On the customer's site or in our shop, RESA certified technicians will work to ensure the reliability and integrity of the transformers and electrical equipment.

RESA TRANSFORMER SERVICES INCLUDE:

- » Transformer Component Repair
- » Doble® Power Factor Testing
- » Full Electrical Testing & Services
- » On-Site Equipment Evaluation
- » Vacuum Filling & Commissioning
- » Energized Oil Processing
- » New And Used Transformer Sales
- » Emergency Transformer Rental
- » Insulation Dry-Out
- » Load Tap Changer Services
- » On-site Sampling Services
- » In-house Laboratory of Dielectric Fluid Analytical Services

Authorized warranty providers for:

- Virginia Transformer
- Siemens
- Hyundai
- ABB
- GE Prolec
- Pacific Crest Transformers

We service and repair all manufacturers.

## Testing & Engineering Services

From conceptual electrical design to power system evaluation and commissioning, RESA provides electrical engineering services for a wide range of needs - including power generation, electrical distribution and electrical transmission.

- » Power System Analysis
- » Power Quality
- » Arc Flash Hazard Analysis And NFPA 70E Compliance
- » Design Services
- » Electrical Safety Training
- » Forensic Analysis
- » Assorted Electrical Engineering Services

Through RESA Power Testing & Engineering, customers are offered

- » Accredited Company Specializing In Low, Medium And High Voltage Electrical Testing, Repair and Engineering Services
- » Service Shops Located Across the Country
- » Safety Training
- » Arc Flash Studies And Training

### Onsite Maintenance & Repair

RESA Power offers preventative maintenance programs as well as emergency repair for customers. Our technicians work quickly to keep down-time to a minimum.

# Low Voltage Components – New and Refurbished Stock

Available online or through select distribution channels.

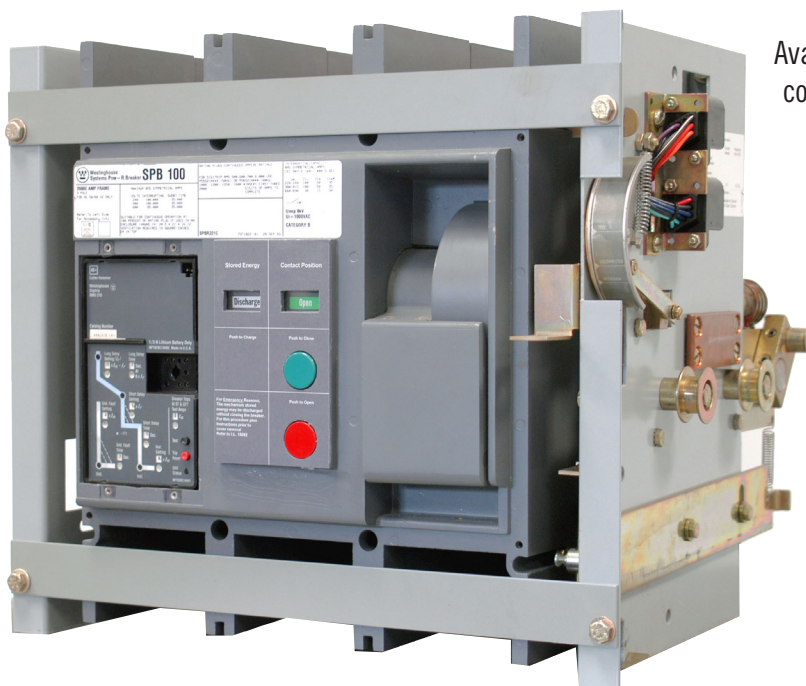

## Circuit Breakers and Parts [480V–15KV] Molded/Insulated Case, Air & Vacuum

Available from stock for immediate delivery, all circuit breakers and renewal parts manufactured from 1940–current, by:

GENERAL ELECTRIC  
I.T.E.  
FEDERAL PACIFIC  
ALLIS CHALMERS  
CUTLER HAMMER  
WESTINGHOUSE  
ABB/BBC  
SQUARE D  
SIEMENS  
POWELL

*All equipment is fully remanufactured  
or new, tested & warranted.  
Typical delivery is 24 hours to 1 week.*

## Motor Control Buckets, Parts & MCCs

Available from stock for immediate delivery, all motor control buckets and MCC components manufactured from 1940–current, by:

GENERAL ELECTRIC  
WESTINGHOUSE  
I.T.E.  
ABB  
FEDERAL PACIFIC  
SQUARE D  
FURNAS  
ALLEN BRADLEY

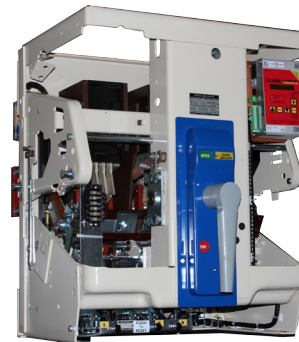

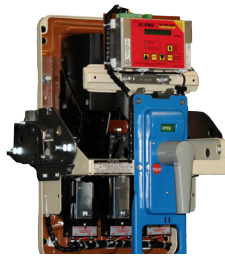

# Electrical Distribution, Breaker, MCC, Switchboard Repair & Rebuild

RESA is able to provide programs for the repair, remanufacture and upgrade of all switching and control assemblies. Customers are provided with up-front assemblies to match all existing equipment and eliminate any possible downtime. Extended warranties are available for all projects.

- » Factory trained technicians provide remanufacturing services for low and medium voltage circuit breakers.
- » RESA remanufactures circuit breakers to a like new condition to meet or exceed original manufacturers specifications.

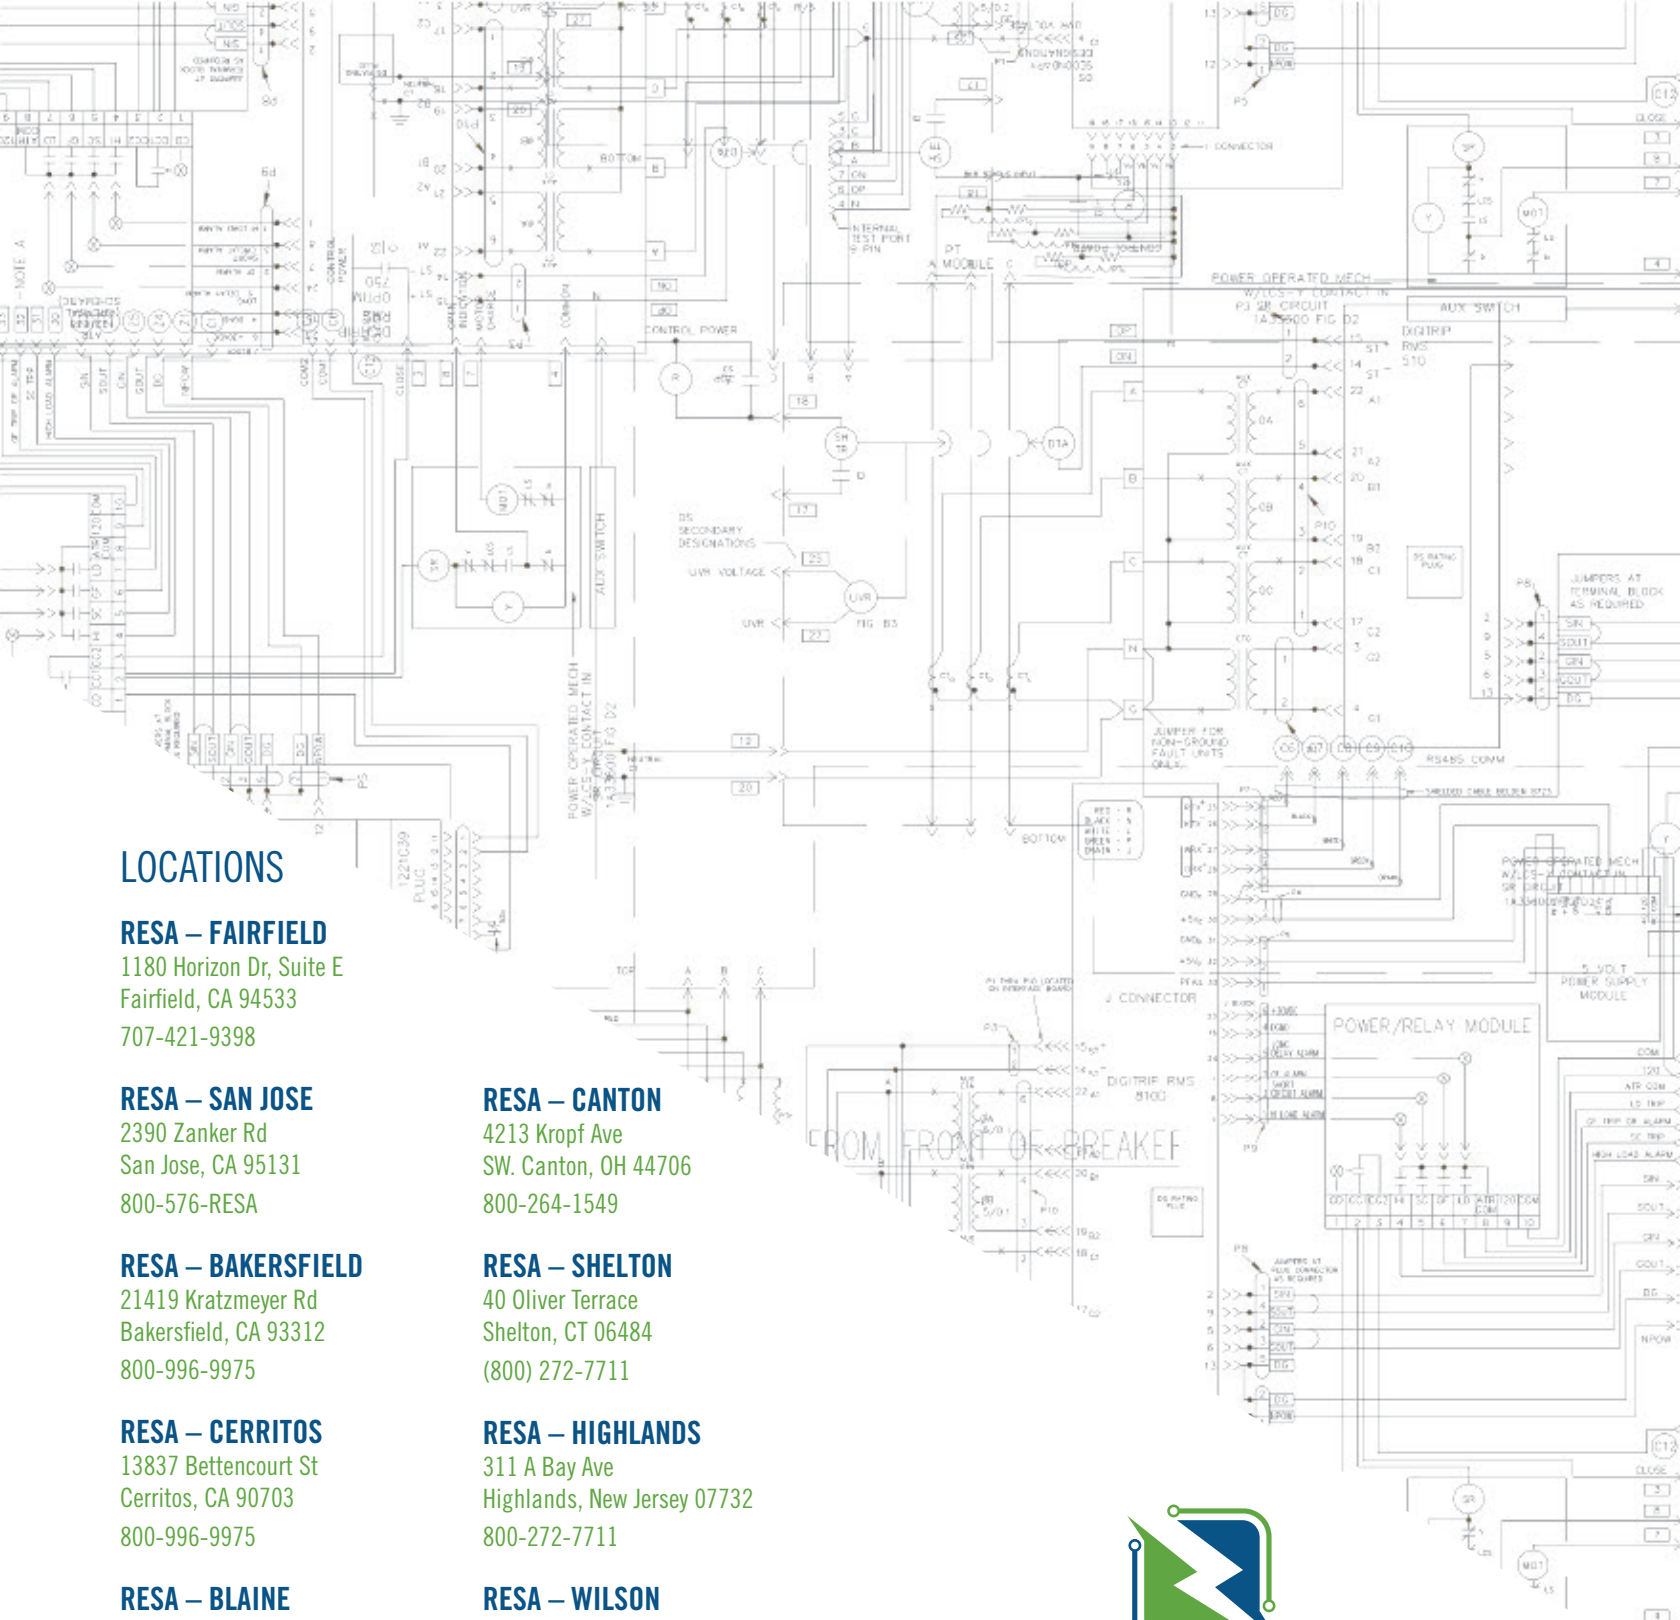

In addition to breaker remanufacturing, RESA also provides:

- » Low Voltage Breaker Over Current Retrofits
- » Electrical Safety Compliance
- » Loaner/Spare Breakers to Customers for Refurbishment Programs
- » 24/7 Emergency Apparatus Repair
- » Power Distribution Field Repair Service

**WHEN WE SAY  
FULLY REBUILT,  
WE MEAN IT.**

## LOCATIONS
